Pipeline jenkins :

```
pipeline {  
    agent any  
    stages {  
        stage('Build') {  
            agent {  
                docker {  
                    image 'composer:latest'  
                    args '-v /etc/passwd:/etc/passwd:ro'  
                }  
            }  
            steps {  
                git 'https://github.com/MartineauAn/test-laravel'  
                sh 'composer install'  
                sh 'cp .env.example .env'  
                sh 'php artisan key:generate'  
            }  
        }  
    }  
}
